

Environmental Policy

Central Demolition Ltd, based in Bonnybridge, Scotland, provides UK-wide demolition services, including emergency work, licensed and non-licensed asbestos removal, asbestos surveys, excavation, site clearance, recycling, and skip hire.

We recognise that our activities can impact the environment and are committed to sustainable and responsible operations. Our Environmental Management System (EMS) follows ISO 14001:2015 principles and applies to all products, services, and activities, considering:

- Internal and external issues relevant to the Company
- Needs and expectations of interested parties
- Environmental compliance obligations
- Environmental aspects we can control or influence

Our Commitments

Central Demolition Ltd.'s top management is committed to:

- Protecting the environment through pollution prevention, resource efficiency, and minimising waste, emissions, noise, dust, and vibration
- Compliance with all applicable environmental legislation, permits, and other requirements
- Applying the waste hierarchy: prevention, reuse, recycling, recovery, and responsible disposal
- Managing risks and opportunities related to environmental impacts
- Continual improvement of environmental performance through monitoring, audits, and corrective actions
- Raising awareness and ensuring all staff and contractors understand their environmental responsibilities

Objectives and Review

This policy provides the framework for setting measurable environmental objectives, reviewed at least annually during management review meetings. Performance will be monitored and continually improved to meet legal, customer, and societal expectations.

This policy is communicated to all employees, available to interested parties, and forms the foundation for a responsible, environmentally conscious business.
